

PRESS RELEASE

GREYWATER enables Club Mahindra to treat and recycle 75,000 Liters wastewater per day

Mumbai, March 18, 2014: GREYWATER, a Mumbai based specialized technology company that pioneers the next generation products for sewage and wastewater treatment announced the commissioning of 75 KLD packaged GREWA-RS STP at Club Mahindra's Holiday resort, located at Mahabaleshwar.

“We are extremely proud to announce that we have commissioned our latest revolutionary STP, GREWA-RS at Club Mahindra's Resort based in Mahabaleshwar. The STP will treat and recycle 75,000 Liters of sewage water per day during peak loads at the resort. Our STP products are critically designed keeping in mind the challenges faced by our clients from hospitality industry. Mahindra Holiday & Resorts is one of our earliest customers and a repeat order from them is a direct testimonial for our superior technology and satisfactory services”. *said Arun Dubey, Head Strategy and Business Development - Greywater.*

“GREYWATER has already installed a STP plant at our GIR facility and we are very satisfied with the plant and post order support and services provided by the GREYWATER team. Thus GREYWATER was our preferred choice for STP in Mahabaleshwar. The GREWA-RS STP installed at our resort will recycle upto 75000 L of wastewater in peak season” *said Basheer Ahmed, Corporate Chief Engineer – Mahindra Holidays & Resorts Pvt. Ltd.*

The resort is located in a highly environmentally regulated zone of Mahabaleshwar, the treated water is being used for landscaping and common area cleaning. Mahabaleshwar sees seasonal variation in number tourist visiting the area, thus there is predictable variation in occupancy of the resort. The GREWA-RS STP comes with a unique feature to sense the reduction in load and accordingly take actions to operate at lower loads.

GREYWATER is amongst the only company in India to provide truly packaged and next generation STP products. In last three years the company has enabled several prestigious clients such as Leighton Welspun, Mahalaxmi Developers, Dell, Unitech, Wadhwa Builders and others to make their projects water sustainable.

About GREYWATER

Greywater is a specialized technology company that pioneers the next generation products for sewage, wastewater and effluent treatment. Funded by Nexus Venture Partners, GREYWATER's compact plug-n-play products are being used in Hospitality, Commercial, Hospitals, SEZ, IT parks, Residential and Industrial sectors. The products significantly reduce space footprint by 30 % to 70 % and energy requirements by 40% to 50% compared to conventional plants. These plants are designed and built to handle variable loads and require minimal manual intervention. Greywater's clients include prestigious corporates such as Dahej SEZ, Mahindra Holidays, Oberoi Realty, Gemco Power, Unitech, Leighton Welspun. The Greywater team comprises experienced professionals, with over 108 years of combined industry experience.
