GREYWATER PARTNERS WITH FINANCIAL INSTI- TUTIONS FOR PRODUCT FINANCING

GREYWATER is proud to announce availability of product financing for its next generation Sewage Treatment Plants.

"Substantial initial Capex is one of the biggest obstacles for greater adoption of wastewater treatment and recycling practices in India. We at GREYWATER are happy to announce availability financing options for our customers in partnership with

INFO CONNECT

leading financial institutions. Through our joint efforts, we strive to offer next generation and fully automatic Sewage Treatment Plants at best available financial terms," said Arun Dubey, Head Strategy and Business Development - Greywater.

"GREYWATER offers

advanced and fully packaged solutions for treatment and reuse of wastewater resulting in substantial savings of freshwater which is a precious resource. We have full confidence in the capabilities of GREYWATER's team to make waste water reuse a mainstream practice," said Representative (Leading Financial Institution in India).

GREYWATER is amongst the first companies in India to offer product financing for wastewater solutions. With revolutionary products such as Grewa-R-S, GREYWATER now has aggressive plans to revolutionise the way sewage, wastewater and effluent is treated.
